4. The following is an examiner's statement of reasons for allowance:

Referring to claims 4, 14, and 24: The prior arts on record do not explicitly disclose a bus bridge with the claimed structure to manage the buffer and to support the dynamically configuring I/O circuits for transferring the delayed transactions according to the bus frequency.

Referring to claims 5-10, 15-20, and 25-29: Claims are allowable because they incorporate the parent claim's allowable subject matter.
